We will continue to have some of the beginning of the year testing this week. Please make sure your child is rested and ready for the day. Also, the children seem to be very hungry when we roll around to our snack time, please send a snack each day for your child.

The new has finally worn off and behavior issues are starting to rise. Please talk with your child about the importance of following the directions of the classroom and about the expectations you have of them. We have started calling every parent to make contact just to check in for the year but unfortunately some of these calls have not been pleasant ones. We want your child to succeed and to reach their highest potential and this is difficult when instruction is being hindered due to misbehaviors.

We watched the fabulous solar eclipse today via NASA since the rays of the sun are most harmful during an eclipse. The children were extremely excited about this phenomenon and were tickled about the fact that the next one that will be visible in Mississippi will be in 28 years!
